National exams or yearly average grades

+ Admission interview in English

Quantitative Economics

Are you interested in economics, finance, or data analysis?
Do you want to understand how our societies function and how their economic and financial systems can be improved?
Do you want to learn how to work with data?
Do you want to learn about about mathematical and econometric modeling of socio-economic phenomena?
If you answered at least two of the above questions with yes, the brand new three-year, English taught BSc in Quantitative Economics may be just the right programme for you.

PROGRAMME OVERVIEW:

- > the only three-year English-taught bachelor programme in Economics in the country;
- > designed and delivered jointly with researchers at the Bank of Lithuania;
- > taught by research-active lecturers and professors with PhDs from leading Western universities worldwide;
- > combines of the CORE project, OpenStax and other state-of-the-art open-sources with the quantitatively rigorous training in economics and finance;
- > provides rigorous training on par with the world's top equivalent programmes;
- > partner's scholarships available for the best students;
- > social partners: Bank of Lithuania, Nasdaq.

CAREER OPPORTUNITIES:

- > Finance Analyst;
- > Economic Analyst;
- > (Big) Data Analyst;
- > Forecaster.

"We are after graduates with rigorous quantitative skills, economic intuition, and capacity to distill complex economic ideas into simple words."

Dr Vitas Vasiliauskas,
Chairman of the Board (Bank of Lithuania)

"Successful navigation within the financial services industry that has been rapidly changing due to financial technologies requires abstract thinking including understanding of economic and finance theories, problem solving and IT skills, and good intuition – all the competences to be nurtured within the BSc in Quantitative Economics programme."

Sigitas Mitkus,
Advisor to the President of the Republic of Lithuania
