BUSINESS INFORMATION SYSTEMS
STUDY PROGRAMME'S REQUIREMENTS FOR INTERNSHIP INSTITUTIONS

Students may perform their internship in a variety of companies or public institutions. The intern's activities should include at least one of the following:

- Assisting in the design and implementation of IT projects or business changes through the implementation of information systems;

- Participation in a project of information system implementation: analysis, design, development, implementation, testing or training phases;

- Participation in information system maintenance and support activities and/or user consultation.
