Subject	Field of study (branch) code	Faculty	Department
Finance (Finansai)	Social science (Economics S 004)	Economics and business administration	Finance

Method of study	Number of credits ECTS	
lectures		
individual work		
consultations	5	
seminars		

Annotation of the subject
<p>This elective course delves into the dynamic landscape of the financial environment, offering a comprehensive exploration of key concepts in financial management, contemporary financial phenomena, sustainable finance, etc. The curriculum covers both micro-finance and macro-finance domains. At the macro-finance level, public finances, their impact on the micro-finance level and intermediate financial chains are examined. Special emphasis is placed on central banking decisions and their impact on financial markets and microfinance. The exploration extends to the microfinance and macro-finance dimensions of sustainable finance. The course analyzes the role of financial technologies and financial behavior. During the course, a lot of attention is paid to the formation of practical skills of PhD students in the changing financial environment, including using the capabilities of the Bloomberg laboratory. Upon successful completion of the course, doctoral students will be well-equipped to understand financial systems, interpret financial information, and make financial decisions, under risk and uncertainty.</p>
Main topics:
<ul style="list-style-type: none"> • The influence of state decisions on financial markets and corporate finances /Prof. Dr Rasa Kanapickienė/ • Monetary policy implemented by central banks and its impact on financial markets, financial institutions and the overall financial system /Prof. Dr Rasa Kanapickienė/ • Financial market trends, the role of financial technologies in financial markets and investment decisions / Prof. Dr Alfreda Šapkauskienė/ • Financial behavior / Prof. Dr Alfreda Šapkauskienė/ • Sustainable finance / Prof. Dr Jelena Stankevičienė/ • Peculiarities of the investment decision-making process / Prof. Dr Jelena Stankevičienė/

Assessment: individual research assignment (70%), presentation and discussion of research results or exam (30%)
