The Business Process Management study programme at Vilnius University allowed me to deepen my theoretical knowledge and acquire new ones. I really appreciate and enjoy the professionalism of the lecturers, who are specialists in their fields. They not only provided theoretical knowledge, but also tried to present the information through practical examples, which made it even easier to understand the processes in the companies. The Business Process Management study programme taught the student to think systematically, enabling them to make informed and measured decisions in business in a changing environment. I believe that I will be able to apply the knowledge I have gained in my work to achieve excellent results.
