Dovre Forvaltning is an independent asset management company with innovative products. The company was founded in 2011 by Stig Myrseth, one of Norway's leading financial experts and is owned by strong Norwegian investors. Dovre has more than EUR 19 million in assets under management through our funds and individual accounts. Our main focus is on the equity market in Scandinavia, the Baltics and Poland. Our assets under management are growing thanks to a strong brand, innovative products and a state of the art e-business distribution model.
