

Generating better working energy

Participate in a **video competition** of valuable insights, submit a conceptual idea for a technology, policy, or process management solution for the **Power & Utilities industry**, and win valuable prizes.

The competition is open for any students in groups of not more than 4 people or individual.

The judging panel of the leading Baltic industry and EY experts will assess the **novelty** of the ideas, the **reasoning behind the economic rationale, feasibility of implementation** and select **3 winners across the Baltics**.

Make your ideas known!
